Contents of Volume 39

294 Allard, Fran, & Burnett, Neil. Skill in sport.

Anderson, John R. *See* Pirolli, Peter L.

151 Bard, Chantal, Hay, Laurette, & Fleury, Michelle. Role of peripheral vision in the directional control of rapid aiming movements.

529 Baum, Morrie, Pereira, Jean, & Leclerc, Robert. Extinction of avoidance responding in rats: The noise-intensity parameter in noise-facilitation of flooding.

Bédard, Stuart. *See* Lepore, Franco.

70 Begg, Ian, & White, Pamela. Encoding specificity in interpersonal communication.

54 Bruyer, R., & Craps, V. Facial asymmetry: Perceptual awareness and lateral differences.

Burnett, Neil. *See* Allard, Fran.

162 Campbell, Arnold J. Processing strategies and letter spacing in the simultaneous- and successive-display matching task.

338 Campbell, Jamie I.D., & Graham, David Jeffrey. Mental multiplication skill: Structure, process, and acquisition.

Casco, Clara. *See* Ward, Roger.

424 Champagnol, Raymond. Recherches sur la morphologie lexicale: Les transformations relatives au nombre.

181 Charness, Neil. Introduction to the Special Issue on Skill.

Coren, Stanley. *See* Porac, Clare.

174 Cornell, James M. Spontaneous mirror-writing in children.

Craps, V. *See* Bruyer, R.

Cuddy, Lola L. *See* Thompson, William F.

Dodwell, Peter C. *See* Hoffman, William C.

188 Ericsson, K. Anders. Memory skill.

Fleury, Michelle. *See* Bard, Chantal.

Frost, Barrie J. *See* Thompson, William F.

460 Gick, Mary L. The effect of a diagram retrieval cue on spontaneous analogical transfer.

Glicksohn, Joseph. *See* Zakay, Dan.

Graham, David Jeffrey. *See* Campbell, Jamie I.D.

Guillemot, Jean-Paul. *See* Lepore, Franco.

Hay, Laurette. *See* Bard, Chantal.

491 Hoffman, William C., & Dodwell, Peter C. Geometric psychology generates the visual Gestalt.

Howard, Ian P. *See* Steinbach, Martin J.

34 Howe, Mark L. Storage and retrieval of associative clusters: A stages-of-learning analysis of associative memory traces.

130 Howe, Mark L., & Hunter, Michael A. Adult age differences in storage-retrieval processes: A stages-of-learning analysis of developmental interactions in concreteness effects.

Hunter, Michael A. *See* Howe, Mark L.

100 Jolicoeur, Pierre, Regehr, Sonya, Smith, Lyndon B.J.P., & Smith, Garth N. Mental rotation of representations of two-dimensional and three-dimensional objects.

88 Klein, Raymond M., & Smith, Lee C. Is the emergence of a right visual field advantage in the category matching task dependent upon category constancy?

232 Kolers, Paul A. Skill in reading and memory.

Leclerc, Robert. *See* Baum, Morrie.

400 Lepore, Franco, Ptito, Maurice, Provençal, Christiane, Bédard, Stuart, & Guillemot, Jean-Paul. Le transfert interhémisphérique d'apprentissages visuels chez le chat à cerveau divisé: Effets de la situation expérimentale.

367 Logan, Gordon D. Skill and automaticity: Relations, implications, and future directions.

313 MacKenzie, Christine L., & Marteniuk, Ronald G. Motor skill: Feedback, knowledge, and structural issues.

536 Marmurek, Harvey H.C. Evidence against the computation of abstract letter identities in visual processing.

Marteniuk, Ronald G. *See* MacKenzie, Christine L.

449 Masson, Michael E.J., & May, Richard B. Identification of words and letters during reading: A sentence inferiority effect for letter detection.

May, Richard B. *See* Masson, Michael E.J.

Ono, Hiroshi. *See* Steinbach, Martin J.

Pereira, Jean. *See* Baum, Morrie.

240 Pirolli, Peter L., & Anderson, John R. The role of learning from examples in the acquisition of recursive programming skills.

479 Porac, Clare, & Coren, Stanley. Monocular asymmetries in vision: One eye dominates. A reply to Steinbach, Howard, and Ono.

440 Proteau, Luc. La différence de temps de réaction au choix observée pour chaque paire stimulus-réponse dans une tâche à huit événements équiprobables.

Provençal, Christiane. *See* Lepore, Franco.

Ptito, Maurice. *See* Lepore, Franco.

Regehr, Sonya. *See* Jolicoeur, Pierre.

467 Schacter, Daniel L., & Worling, James R. Attribute information and the feeling-of-knowing.

273 Sloboda, John A. Expressive skills in two pianists: Metrical communication in real and simulated performance.

Smith, Garth N. *See* Jolicoeur, Pierre.

Smith, Lee C. *See* Klein, Raymond M.

Smith, Lyndon B.J.P. *See* Jolicoeur, Pierre.

476 Steinbach, Martin J., Howard, Ian P., & Ono, Hiroshi. Monocular asymmetries in vision: We don't see eye-to-eye.

1 Thompson, William F., Cuddy, Lola L., & Frost, Barrie J. Opponent processes in vowel perception.

16 Vinter, Annie. La capacité d'imitation à la naissance: Elle existe, mais que signifie-t-elle?

546 Ward, Lawrence M. Covert focussing of the attentional gaze.

387 Ward, Roger, Casco, Clara, & Watt, R.J. The location of noisy visual stimuli.

Watt, R.J. *See* Ward, Roger.

White, Pamela. *See* Begg, Ian.

Worling, James R. *See* Schacter, Daniel L.

414 Zakay, Dan, & Glicksohn, Joseph. Stimulus congruity and S-R compatibility as determinants of interference in a Stroop-like task.

BOOK REVIEWS

487 Bialystok, Ellen. In search of the links. (A review of *Cognition, Metacognition, and Reading*, by D.L. Forrest-Pressley & T.G. Waller.)

483 Cornell, Edward H. First remembered, first forgotten. (A review of *Infant Memory: Its Relation to Normal and Pathological Memory in Humans and Other Animals*, edited by M. Moscovitch.)

482 Mewhort, D.J.K. Cognition must be computational. (A review of *Computation and Cognition: Toward a Foundation for Cognitive Science*, by Z.W. Pylyshyn.)
